It was **RESOLVED: Recommend refusal. Whilst the Committee had no objection in principle to the change of use and the additional flats of this size, they believed that the proposal was an over development of the site in terms of size and bulk which would create a domineering impact on both neighbouring property No 1 Leyton Green and on the character and appearance of the street scene and the Harpenden Conservation Area. Concerns were expressed with regards to the reduction of space between the proposed part two storey, part first floor rear extension and that of its neighbouring property at No 1 Leyton Green. It was **RESOLVED: Recommend refusal. The proposed siting of the triple bay garage would be out of keeping with the street scene creating a large dominant feature on this corner plot and would be imposing and out of character for the area. The proposed additional new vehicle crossover is sited too close to the junction of Grassmere Avenue which could create conflict with pedestrians, school traffic and other road users.
